Reading Records

Every child in school is given a reading record at the start of this year.

This record is to keep all comments related to reading from at home and school. We hope that children will read three times a week.

Each week parents and school staff sign the reading record. Comments can be added too!

Staying connected supporting your child's learning

The school website contains detailed information about the school curriculum.

In addition, weekly 'We are learning to Leaflets' will be sent out on ParentMail. This tells you exactly what your child is learning each week. It contains information about vocabulary and suggested things to do and talk about.

The school will also run sessions to support you further

All diary dates are given a term in advance and can be found on the school website.

Home Learning – Chat, Read, Do!

Home learning is set fortnightly. This can be set by teachers on Seesaw. Children are asked to upload their learning on here too! School staff will comment/acknowledge all children's home learning. We kindly request the children and parents do not use this as a method of contacting the staff teacher. Unfortunately we cannot respond to these messages.

Scheduled Reports on your child's learning

Parent's Evening will take place in the Autumn and Spring Term. The purpose of this is to discuss your child's learning and progress. Teachers will also discuss their health and well-being in school, behaviour and attitude to learning.

In the Summer term, teachers will provide all families with a written report. This will include assessment levels

Year 1, Year 2 and Year 6 parents will also receive mock assessment results, prior to statutory assessments in May.

Your views!

We will regularly seek your views to make the school better- questionnaires go out termly!

The school welcomes parent volunteers- we always need more reading ambassadors! Get in touch to find out more

Celebrating Achievement

- Teachers will 'Phone Home Friday'. A child is chosen each week for a special home mention
- Teachers also select a child daily for the learner of the day.
- Weekly achievement assemblies identify amazing performance linked to the school learning characteristics
- Each term, parents can join class assemblies on Zoom for a celebration of learning. Children will also bring home their 'proudest' learning moment

All letters will be sent home electronically through ParentMail

Contact- To contact school either phone or email. Social media messages cannot be responded to
